ABOUT UNICORP GROUP OF COMPANIES

The Unicorp Group was founded in the year 1953 with its primary business of distributing and installing Air-conditioning systems with the core philosophy of care, commitment and utmost sincerity and honesty to the customer which has paid very rich dividends through the 54 years of its existence and has led to its current form of being a totally multifaceted diversified group having a firm foothold in various businesses including Air-conditioning, Security Systems, Power Management and Conservation Systems, Green Building & Consultancy, Property and Lifestyle products, Building Management Systems, Facilities Management and Marine Solutions but with the absolutely same vision and a single-minded determination to serve the customer diligently and offer the best products at the best values.

The company is a fully ISO 9001 :2000 certified organization and has a full fledged setup in 7 cities all over India and now provides direct and indirect employment to more than 1,500 personnel in various capacities and serving more than 450 large corporations and tens of thousands of individuals and smaller companies with one of the most efficient and state of the art core customer service centre dedicated to the group with more than 300 dedicated lines to offer its customers absolutely unparalleled priority service across the groups activities.

UNICORP AIR CONDITIONING

We are India's leading Air-conditioning and ventilation systems distributors and are the distributors of Mitsubishi, LG, Daewoo, Daytek, General, Onida, York, ETA, Godrej, and a further 17 leading air-conditioning brands. We are also the recipients of a vast number of Sales and Service awards from various manufacturers and are the single largest distributors of Mitsubishi air-conditioning systems in the whole of India for five years in a row. We are also the single largest distributors of Daewoo and Daytek range of air-conditioning systems in the entire country and similarly also the largest distributors of LG commercial air-conditioning systems in the whole of India.

We have a vast team of highly skilled AutoCAD engineers to completely design large split and ductable systems and even specialize in the new generation Scroll Air-cooled Chillers, VRV, MPS and VRF systems. We are in a position to carry out entire total turnkey installation and commissioning of such complex systems right from the accurate AutoCAD designs stage to complete ducting design and fabrication, condenser platforms fabrication, conducting and wiring and culminating in the total commissioning, testing and handover stage.

All our top maintenance administrators are connected on the blackberry network with our own captive blackberry servers and are thus accessible 24 hrs for call registration thus leading to a dramatic improvement in service response time.

We are also one of the largest ISO 9001 : 2000 certified maintenance providers in the whole of India and have a totally dedicated centralized call centre offering a myriad of various Amc's for new and preexisting systems and are the only Company to offer a renewable comprehensive contract for 17 years for any new system purchased from us which amply shows our confidence in our ability to provide stupendous service to our customers.

UNICORP SECURITY SOLUTIONS

Our sister concern and our group company Unicorp Security Solutions and Argus Electronic Solutions are also in the business of total electronic security systems consisting of CCTV's , Digital Video Recorders and surveillance systems, biometric readers , fire fighting systems and also data management and access control systems etc. We have a vast team of highly dedicated and trained engineers who totally design and install these systems with utmost precision. We are also one of the largest providers of maintenance contracts for the same and are a leading force in the banking and commercial sectors as total electronic solution providers.
